# Client Information

---

## Amina Pierson

*Executive Director at Martindale Brightwood Community Development Corporation*

- The **Enterprise Virtual Exchange (EVE)** provides entrepreneurs and small business owners with the key resources that would enable them to realize their visions and build social capital.
- Requested a website so that it is accessible to as many people as possible.
- Mainly targeted at minorities and people of communities that lack resources about business and entrepreneurship.

# Mentor Feedback

---

## Documentation

- Code blocks in markdown files
- Directory section
- Add command line for README.md

## Software

- Rich Text Editor for Add Article
- Prioritise backlog for iteration 3

## Other

- Winter Break plans
- Style guide
- Meeting minutes template
- Pull Requests
- Issue tracking with milestones and issue template

# Client Feedback

---

- Ribbon for SponsorPackage on the side
- Search keywords for articles
- Ask EVE tab on the navbar
- The logo should have the slogan when navigating to other pages.
- Play around with the logo and change the top two points of the letter V. The circles below are too round
- Articles, videos, live, podcasts, and zoom meetings under resources
- Everybody should have access to articles but only member can access all the other resources and make comments
- Building an experience to simulate being in person at a conference (Graphics waiting room)
- “Login for more” button for other resources

# Iteration 3 Features

---

- Complete Contact Us page so that users can contact for support
- Complete About Us page so that users can have more information about the website
- Add Ask EVE link to the navigation bar so that users can ask questions about what they're unsure of
- Add pre-recorded zoom page, zoom live page, and podcasts page so that users have a variety of resources that they could access
- Separate sign up for Sponsor and Member accounts
- Users can view videos
- Sponsors can upload videos

# Interesting Slide

---

```
for($i=0, $i<3, $i++) {  
    echo 'Ho!';  
}  
  
echo 'Merry Christmas!';
```
