

A decorative graphic in the top-left corner consisting of two overlapping parallelograms. The front one is blue and the back one is a light greenish-blue. Both are tilted at an angle.

EVE

Iteration 1

Presentation

By: Mera Alfawares, Jamari Brown, Austin Foster, Iqra Almani, Duan Rollins

Team members information

Mera Alfawares

Strengths:

- Main Conductor of the Group
- Knowledge/understanding of Web development
- Back End Dev
- Previous experience of software development in web developer practices

Weaknesses:

- Bad time management
- Gets caught up in the details
- Takes a five hour break after five minutes of work

Jamari Brown

Strengths:

- Front End Dev
- Design expert
- Testing Dev
- Good on picking up issues with code and helping fix them

Weaknesses:

- Procrastination
- Python
- Back End Dev
- Communication

Austin Foster

Strengths:

- Planning
- Communication
- Front End Dev
- Java/JavaScript/CSS
- Documentation
- Motivational

Weaknesses:

- Back End Dev
- Python
- Procrastination

Iqra Almani

Strengths:

- Front End Dev
- Motivational
- Quick to pick up on the Front End aspect of the business.
- Communication

Weaknesses:

- Overstress about everything
- Imposter syndrome

Duan Rollins

Strengths:

- Front End Dev
- very good listener
- grunt worker
- Can become motivated when push comes to shove

Weaknesses:

- Limited Schedule
- Back End Dev
- Poor Communication
- Coding skills subpar
- Procrastination

Client information

Amina Pierson

Executive Director at Martindale Brightwood Community Development Corporation

- The **Enterprise Virtual Exchange (EVE)** provides entrepreneurs and small business owners with the key resources that would enable them to realize their visions and build social capital.
- Requested a website so that it is accessible to as many people as possible.
- Mainly targeted at minorities and people of communities that lack resources about business and entrepreneurship.

Mentor feedback

Thoughts for future iterations:

- Plan out work using github projects
- Have a good distribution of tasks and assign them to people
- How to we make our website deployable
- Recommends Heroku

Changes:

- We have started planning out our work better using github projects
- We plan to set clearer goal for ourselves to make progress tracking easier

Client feedback

What the client is seeking for changes:

- Make Sponsorship packages unique to each company that wants It.
- A well made video on the Homepage that emphasizes the communication between Businesses and People
- A Sponsorship tab in the NavBar so potential sponsors can learn more about what it means to be a sponsor.
- Shrinking the Keys Logo so it will be smaller.

Iteration 2 features

- All the specified requirements from our first iteration that were not completed fully
- Adding a profile page for Member/Sponsor
- Accessing actual blogs rather than just test blogs (change to: access full version of blog?)
- Be able to view videos

Our Group in a Nutshell

It doesn't work..... why?

It works..... why?
